Job Requirements

1. Applicants to the UN Internship Programme are not required to have professional work experience. However, a field of study that is closely related to the type of internship that you are applying for is required. Please explain how you meet this criterion using examples.

☐ I do not meet this criterion

I am a Bachelor of Economics and have undertaken post graduate level Business Administration. My academic education included development economics, public finance, policy analysis, institutional governance and strategic management which are all applicable to the area that UN-Habitat focuses on, sustainable urban development and institutional capacity-building. Moreover, I have undertaken the complementary professional training (please, see attached certificate) to enhance my analytical and administrative skills. My background would allow me to see the impact of economic policy, the nature of governance and coordination of institutions on sustainable cities and development outcomes, which is quite relevant to programme support functions.

2. Applicants must be a student in the final year of the first university degree (bachelor or equivalent), Master's or Ph.D. Programme or equivalent, or have completed a Bachelor's, Master's or Ph.D. Programme. Do you meet any of the above criteria? If yes, please indicate which one and attach proof to the application. Please note that you will have to provide an official certificate at a later stage. Please explain how you meet this criterion using examples.

☐ I do not meet this criterion

Yes, I meet this criterion. My highest education is a Bachelors degree in Economics and studies in Business Administration on a postgraduate level. Research methodology, data analysis and policy evaluation were part of my education. I will be able to give professional academic certificates and transcripts as evidence. My academic accomplishments show that I have been performing at a steady level and have been interested in economic analysis in aspects that are development-focused.

3. Proficiency in computer software applications (e.g. Word, Excel, PowerPoint) is required. Please explain how you meet this criterion using examples.

☐ I do not meet this criterion

I have mastered PowerPoint, Microsoft Word and Excel. Word, Excel, and PowerPoint are used by me in my banking job to draft reports and official letter, track data, financial summary, and chart preparation and internal briefings and presentations. Proper research papers preparation, data analysis, and presentation also needed to be presented in these tools in my academic studies. Moreover, I have done some extra training that has improved my digital and analytical skills, which additionally contributed to my comprehension of being able to support reporting and documentation processes.

4. Do you have any previous experience working with international organisations? Please explain below.

☐ No

I have not been employed with foreign organizations. Nevertheless, my school education and career have introduced me to global

development schemes, such as SDGs or global financial standards. I am an active observer of the UN development programs and city sustainability debates. I am also encouraged to get practical exposure in an international setting and play a productive role when serving UN-Habitat regionally.

5. Do you have any project management/ project coordination experience? Please explain below.

☐ No

Though I have not been a project manager as a title, I have some experience in coordination. In my present position, I work with other team members to monitor priorities, achieve targets at the branch, and fulfill regulatory requirements. In my educational activities, I completed group research activities, which involved organization, assignment of tasks, managing time, and creating a group report. These experiences gave me strength in my organizational skills and responsibility, as well as capability to work in systematic settings.

Education/Languages

Education Details

Higher Education/University degrees

School	Degree/Diploma	Level of Degree	From	To	Edit

Motivation Statement

Motivation Statement

Please explain what motivates you to apply for this position. You may also use this space to tell us about anything else that is not already in your application that makes you a good fit for this position.
[text limit 2,000 characters incl. spaces]

The motivation behind the reason why I would consider applying to the Programme Support Internship in UN-Habitat is because I hold the stror belief that sustainable urban development is about economic stability, social inclusion and resilience in the long run. Being an Ethiopian who ha explored both the opportunities and structural setbacks that are brought about by the high rate of urbanization, I have found out that, institutiona coordination, policies of inclusion and strategic planning directly affect the lives of people.

Please upload relevant file(s) here (e.g., two latest performance management documents for UN staff).
For Job Openings for the Young Professionals Programme, please attach at least one government-issued identity document (e.g., passport) anc academic certificate/diploma reflecting the degree(s) as evidence of the degree(s) obtained listed in the Education section of the application.
For applications to locally recruited staff positions in the General Service or related categories, please upload one or more documents (e.g., pas permit) that indicate your right to work in the duty station you are applying to.
Please note that file names should be limited to 30 characters.
